SUMMER ADVERTISING
this year indicates an excellent bargain-time for the people. In these troublesome times money is the most important factor in a merchant's business, but there are some merchants who do not know that to draw trade these dull times he must not consider cost or profit, but must offer you

such goods as you will want at prices that will cause you and your neighbors to come to his store. This fact we have recognized for years. People often say we must have made enormous profits during the season to be able to sell these goods now at such a difference in price. But it s not a question of ability but necessity. We have put down the prices in almost every instance. We cannot tell you of everything in our advertisements. It needs your own investigation to find out. Make up your mind not to buy anything now until you have first gotten our price.

We started out this season with the biggest stock of LaDIES' SHIRT-WAISTS, and though we have sold most, our assortment is extraordinarily large and the most tempting bargains await you at the counters. You know as when we are overstocked we know mark down with only one object: To sell and self-everybedy. Only foolish women would be self-everybedy. Only foolish women woul 25c., reduced to be.

If you are going to a summer resort and wars as the percent of the stress when some fancy work to while away a few hours come to see the enormous reductions in prices we have made in the Fancy-Work Bentievent. The above are only a few speciment. The above are
